This Month's Edition includes:

- > *The New Summer Vacation*
- > *Hackers Attack Hospitals*
- > *Shopping Tips*
- and much more!*

Inside this issue...

TIP OF THE MONTH

Greet a Grower

It's picking season! Farmers across the country have opened their

cornfields, berry patches, and market stands to bucket-clad visitors. Support local farmers by loading your car with boxes full of fresh strawberries, blackberries and blueberries, or pre-assembled summer vegetable medleys. Shopping for produce from outdoor markets is also great alternative for those still hesitant to visit grocery stores.

Featured Story

How to Navigate the New Summer Vacation

Last June, airports were chock-full of travelers, resorts boasted limited vacancy, and millions of Americans embarked on road trips to their favorite summer destinations. This year looks quite different, however, as COVID-19 has redefined the quintessential summer vacation. Not only have executive orders shut down beaches and community pools, but international protocols have greatly impacted the potential for travel.

As cruises remain docked and airlines fly at half capacity, you are likely inquiring about cancellations, refunds, and travel vouchers. Our Legal Plan provides fully covered services for nearly all consumer relation matters. Although much of the travel industry is hard at work to accommodate changes, we encourage you to seek legal counsel should you face violations in the terms of agreement outlined by travel insurance, cancellation or rebooking policies.

Phase One

Phase One of the national campaign, Opening Up America Again, is the reopening we have all been waiting for. Its rules, regulations, and effective dates vary by state, but show promise of returning to our former ways. Restaurants are permitted to operate with reduced capacity and non-essential businesses can open their doors following social distancing regulations.

SOMETHING DIFFERENT

Celebrate Great Outdoors Month

June is Great Outdoors Month, paying homage to the remarkable trails, beaches, and mountains found throughout our national and state parks. Exploring nature not only boosts emotional health, but the U.S. economy as well. According to the Outdoor Industry Association, outdoor recreation grosses nearly \$890 billion in consumer spending annually.

Looking for ways to participate? Here's how:

June 1 is National Trail Day, so lace up your hiking boots and hit the forested trails nearest you.

Go camping. Whether you pitch a tent in your backyard or at a full-service campground, embrace the outdoors by falling asleep beneath the stars.

Cast a line. Fishing is the ultimate outdoor experience and many parks allow recreational fishing in their catch-and-release ponds.

Clean up. It is our responsibility to ensure trails, parks and waterways remain clear of clutter. On your next outdoor excursion, collect trash to do your part in preserving the beauty of natural areas.

DID YOU KNOW ?...

Fewer commercial flights means inaccurate weather forecasting. Airlines are largely responsible for reporting weather data such as wind direction, speed, air pressure, temperature, and humidity. The World Meteorological Organization reports an average of 800,000+ daily weather observations, but that number has decreased to nearly one quarter due to COVID-19.

CYBER CORNER

Healthcare organizations have become the number one target for cyber criminals, exposing private patient information and creating lapses in medical treatment. As the industry struggles to combat the physical virus, they also fall short in protecting themselves from software viruses spread by hackers.

Without proper protection, hospitals are at risk of losing medical charts, billing information, and personal identifiable information for both employees and patients such as social security numbers, birth certificates, and credit card numbers. Our IDP Plan can help evade cyber-attacks and keep your personal information safe and secure.

Frequently Asked Questions

Q: I worked with my Plan Attorney to design a will. I am interested in setting up a trust as well. Are trusts covered by my Legal Resources Legal Plan?

A: Yes! Although trusts are not included in the plan's fully covered services, our expanded coverage policy allows for you to work with your Plan Attorney at a reduced cost of 25% off standard attorney fees for trust creation.

Please contact our Member Services Department with any questions.
We look forward to serving you and your family.
